

Amendments to the Specification:

Please replace the paragraph on page 8, lines 10-11 with the following amended paragraph:

Fig. 2A is a top perspective view of the scanning device of Fig. 1 scanning a sheet of paper.

Please add the following new paragraph on page 8, after line 11:

Fig. 2B is a bottom view of the scanning device of Fig. 1.

Please replace the paragraph between page 14, line 22 and page 15, line 5 with the following amended paragraph:

Referring to Fig. 2A, the scanning device 100 is illustrated imaging the surface 182 of the sheet of paper 180. During the scanning operation, the scanning device 100 may generate image data representative of text 178 printed on the surface 182 of the sheet of paper 180 in a conventional manner. The scanning device 100 may be manually moved by an operator along a meandering path 176 over the surface 182 of the sheet of paper 180 during the scanning operation. As the scanning device 100 passes over the text 178, the scanning device 100 converts the text to image data. The scanning device 100 may, for example, be configured as a conventional hand-held scanning device, such as the hand-held scanning devices described in the United States patents and patent applications: 5,552,597 of McConica; 5,646,394 of Steinle; 5,646,402 of Khovaylo et al.; 5,723,859 of Kerschner et al.; serial number 09/120,641 of Sims et al.; and serial number 09/120,637 of Sims et al.; which have all been previously referenced.

Please add the following new paragraph on page 15, line 6:

Fig. 2B is a bottom view of the scanning device 100. As shown in Fig. 2, the scanning device includes two position sensing devices 200. The position sensing devices may be located within the scanning device 100. The position sensing devices 200 may be located on a substrate 210 with a linear array of photodetectors 230 extending between the position sensing devices.

Amendments to the Drawings:

The attached sheet of drawings includes changes to Fig. 2. This sheet, which includes Fig. 2A and new Fig. 2B, replaces the original sheet including Fig. 2.

Attachment: Replacement Sheet
